

INTERNSHIP OPPORTUNITIES

Premier Reproductive Service Specialist (RSS) Internship

This internship is offered by Premier Select Sires, Inc. The intern will work within the Premier Select Sires territory.

DUTIES:

- ◆ Learn and implement the complete RSS service program. Once trained, function as a Relief RSS, providing heat detection and artificial insemination (AI) services to customers. (Approximately 80% of time)
- ◆ Other duties as assigned by the Regional Marketing Manager. These might include customer trainings, work at trade shows, general sales support, mating program assistance, liquid nitrogen service, etc. (Approximately 20% of time)
- ◆ Significant overnight travel within the regional area is possible. A vehicle will be provided or the intern will be reimbursed for mileage.

PROVIDED TRAINING:

- ◆ AI techniques including heat detection, insemination, record keeping and reproductive records analysis using Dairy Comp 305 and PC Dart
- ◆ Working with liquid nitrogen and related equipment
- ◆ Selling skills
- ◆ Additional orientation training provided by the Select Sires, Inc. headquarters in Plain City, OH. (Other training opportunities may be added or substituted for this training)

COMPENSATION:

- ◆ Intern will be paid on a per diem basis, plus travel expenses

QUALIFICATIONS:

- ◆ People oriented with good communication skills
- ◆ Capable of independent work without close supervision
- ◆ Interest in working hands-on with dairy cattle and the dairy industry
- ◆ Interest in exploring a career in the AI industry
- ◆ Valid driver's license and good driving record
